When you specify the additional text in your transfer ("subject", "Verwendungszweck"), please start it with your membership number, immediately followed by your name, as the Society sometimes only receives the first few characters and identifying the source can then be very difficult.

You can make bank transfers either in British Pound Sterling (GBP) or in Euro, but please make sure that any explicit bank charges are paid by you. It has been found that most European banks do not levy an explicit charge when you transfer the amount in Euro. Charges are usually wrapped into the exchange rates that are used for the currency conversion.

For 'individual membership' the annual fee is currently £10 or 11 Euro.

For 'corporate membership' the annual fee is currently £40 or 45 Euro.
